It's easy!!

# QUICK OVERVIEW

# 1. Verification process

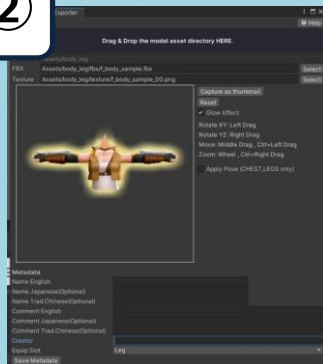

①

Create your 3D file

\*Use 3D tools such as Maya and Blender to create your file

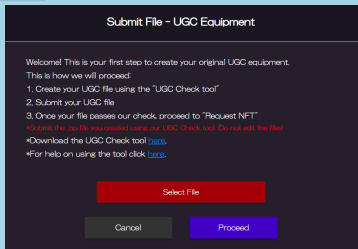

②

Use our  
"UGC Check Tool" to  
enter necessary details

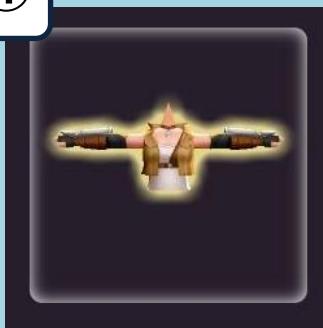

\*You will use GENSO's Unity plugin to  
finalize your design

③

Upload your file via  
GENSO MAKER

④

You file is ready to  
submit!

# 1. Verification process

⑤

STATUS - Applying Updated 2022

Proceed to VERIF Upload / Update Delete File

Download .zip

Click "Proceed to VERIF"  
To submit your UGC for verification

⑥

STATUS - Request NFT

Name(EN)  
Sword test R

Name(CH)  
劍試 右

Name(JP)  
Swordテスト 右

Once your UGC passes  
verification, you can turn it into  
an NFT!!!! YES!!!!

Good job, that was the hard part.

Now let's "Request NFT" 

## 2. Requesting NFT

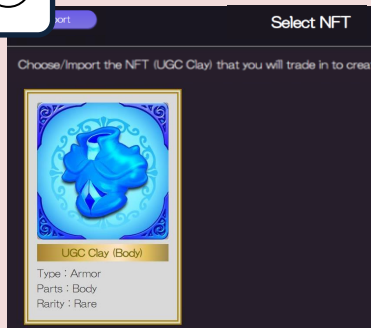

①

Request NFT

Download zip

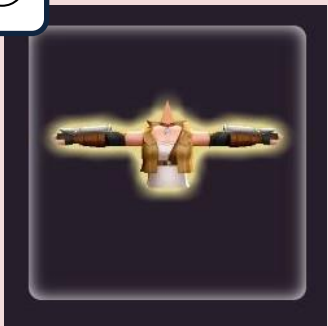

Click "Request NFT"

②

Import the appropriate Clay NFT

③

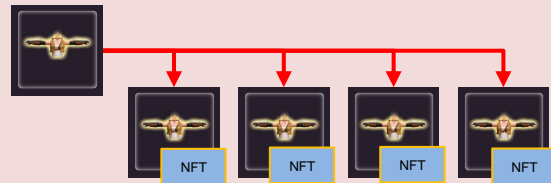

Your UGC is ready to become an NFT

Once your request is approved...

④

NFT is in your wallet!!

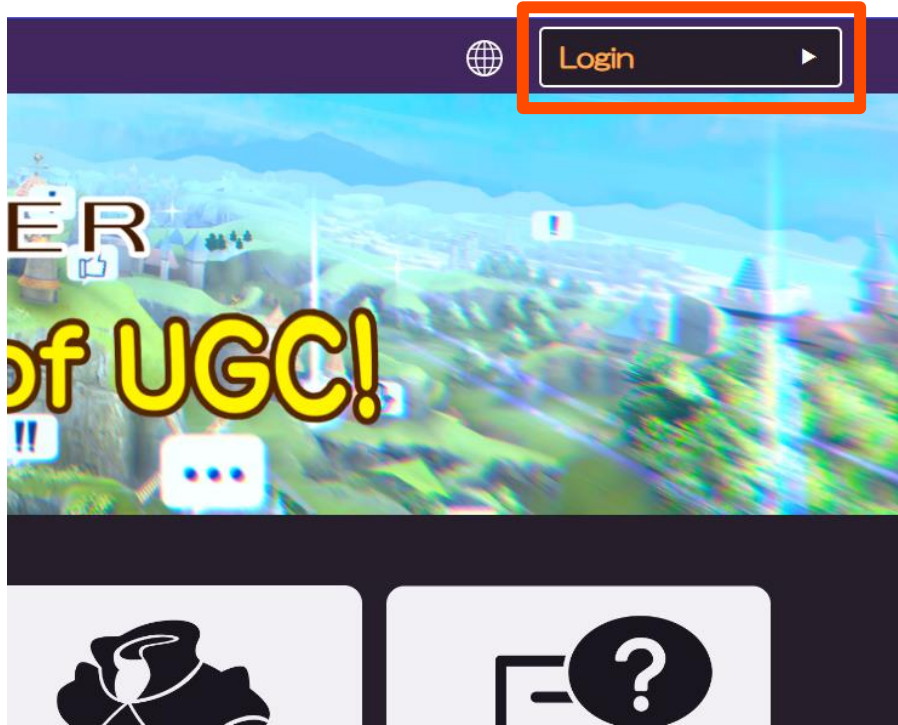

UGC files that have passed verification can be turned into NFTs as many times as you want.  
(As long as you have the corresponding Clay NFT)

# Step-by-step Guide

# 1. Prerequisites: Create Account/Wallet

## ■ Create Account

**You need an account to use GENSO MAKER.**

On the GENSO MAKER top page, click "Login".  
Create an account using your email address or social media account.

\*If you are already playing GensoKishi, you can login with your Genso account.

## ■ Create Wallet

To create UGC equipment you will need to import \$MV and UGC Clay from your wallet.

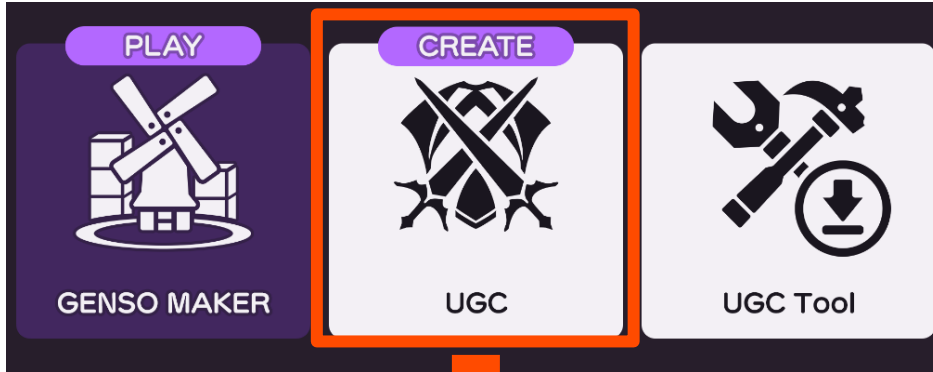

If you do not have a wallet already, please follow the guide below.

<https://genso.game/en/howto-beginner/>

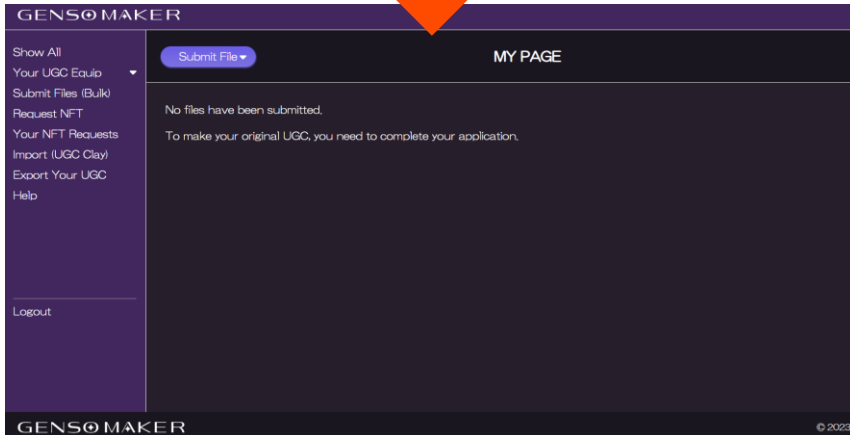

## 2. Open GENSO MAKER and click “UGC”

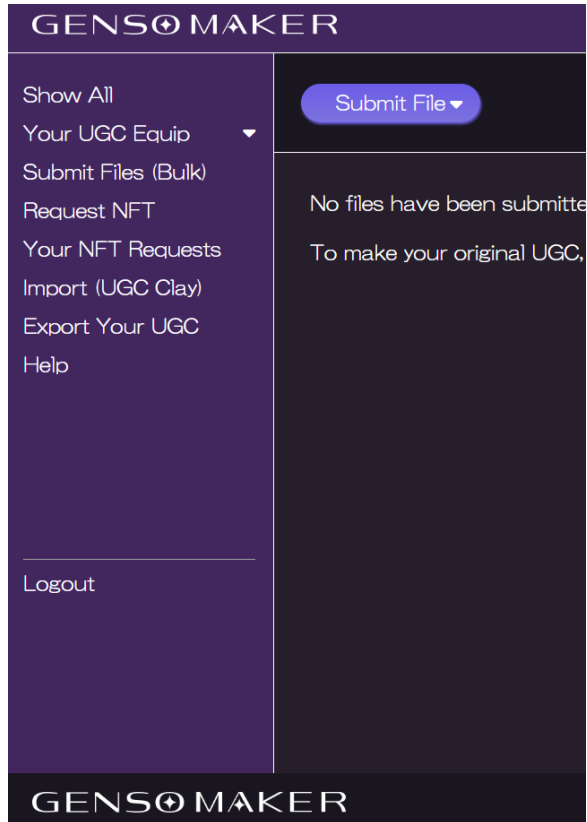

Click “UGC” to jump to “MY PAGE”

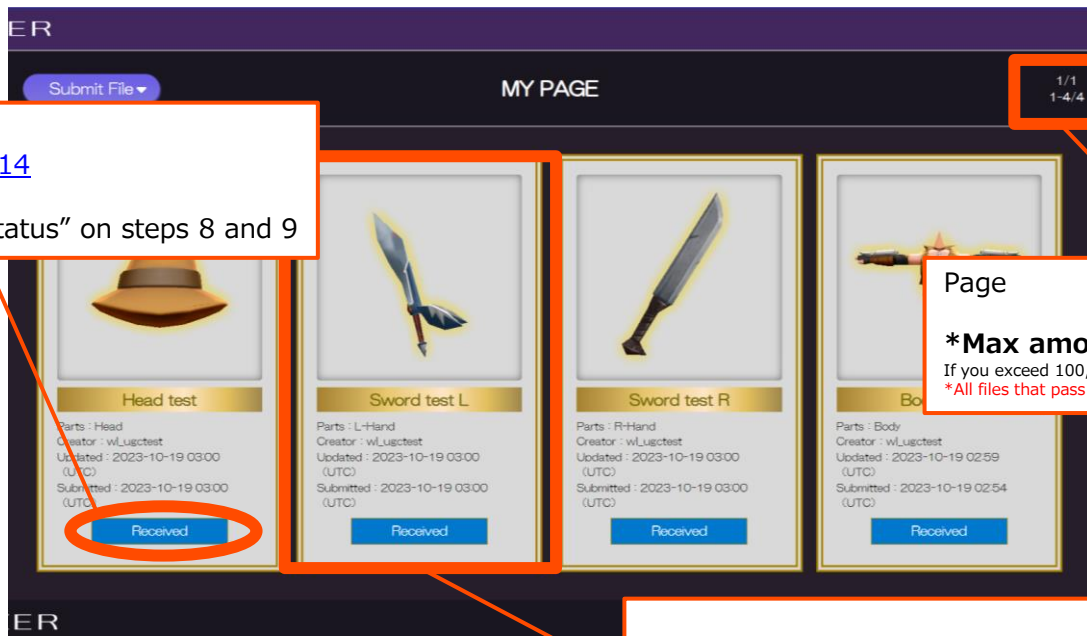

### 3. "MY PAGE" Side bar explanation

|                     |   |
|---------------------|---|
| Submit File         | Start here to submit your UGC Files   |
| Show All            | Show all your UGC files.<br>Right now you will only see Equipment, but in the future you will see objects, LAND, etc. |
| Your UGC Equip.     | All your UGC equipment can be found here.<br>Filter by parts too.   |
| Submit Files (Bulk) | Submit in bulk (up to 10 at a time).<br>*fees won't differ  |
| Request NFT         | All your UGC Files that have passed verification and can be turned into NFTs will be displayed here.                  |
| Your NFT Requests   | All NFT Requests can be found here.   |
| Import (UGC Clay)   | Manually import "UGC Clay" here.  |
| Export Your UGC     | Export your UGC Equipment from here.  |
| Help                | User guides and help.   |

## 4. "MY PAGE" explanation

<Status Bar>

Click to see details.→ [pg 14](#)

※More on "Verification Status" on steps 8 and 9

1/1  
1-4/4

Page

**\*Max amount is 100.**

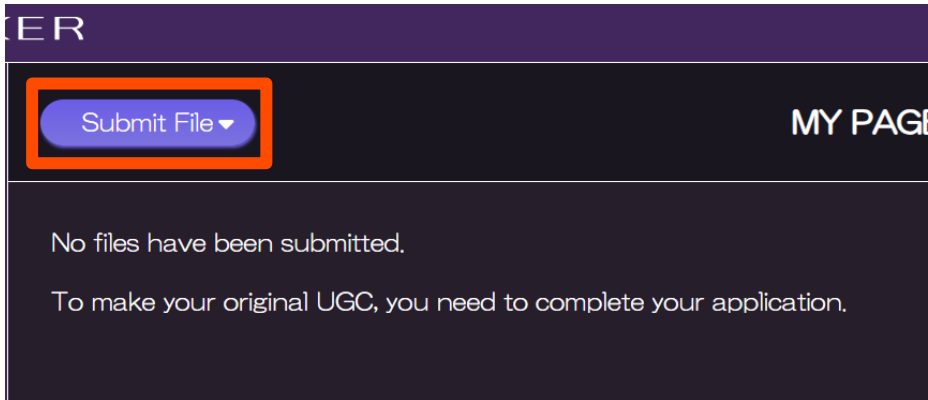

If you exceed 100, please delete excess data.

*\*All files that pass verification do not count.*

All details regarding your UGC File.

## 5. Click the "Submit File" button

Your first step of UGC is to submit your 3D file for verification.  
To start the process, click "Submit File".

## 6. Submit your File

**Submit File - UGC Equipment**

Welcome! This is your first step to create your original UGC equipment.  
This is how we will proceed:

1. Create your UGC file using the "UGC Check tool"
2. Submit your UGC file
3. Once your file passes our check, proceed to "Request NFT"

\*Submit the .zip file you created using our UGC Check tool (Do not edit the files)  
\*Download the UGC Check tool [here](#).  
\*For help on using the tool click [here](#).

**Select File**

Cancel Proceed

Submit the .zip file you created using our UGC Check tool.

Upload the .zip file from here.

(Do not upload any other formats)

(Do not change the file after you export from the UGC Check tool)

**File has been submitted**

Your UGC Equipment file has been submitted for verification.

Submit more files Proceed to Verification

Once you finish uploading the data you can choose between, "Submit more files" and "Proceed to Verification".

■ "Proceed to Verification"

Proceed to the final step of the verification process.

■ "Submit more files"

Submit other files. OR go back.

## 7. Check the File you uploaded

Check the details of the file you uploaded by clicking the blue button (the “status bar”) of your uploaded UGC file to display the data

The screenshot shows the 'MY PAGE' interface in Gensokishi Online. On the left is a purple sidebar with navigation links: 'Show All', 'Your UGC Equip', 'Submit Files (Bulk)', 'Request NFT', 'Export Your UGC', 'Help', and 'Logout'. The main area has a 'Submit File' button and a '1/1 1-4/4' indicator. It displays four UGC items in a grid:

- Head test**: Parts : Head, Creator : wLugctest, Updated : 2023-10-19 03:00 (UTC), Submitted : 2023-10-19 03:00 (UTC). The 'Received' button is circled in red.
- Sword test L**: Parts : L-Hand, Creator : wLugctest, Updated : 2023-10-19 03:00 (UTC), Submitted : 2023-10-19 03:00 (UTC).
- Sword test R**: Parts : R-Hand, Creator : wLugctest, Updated : 2023-10-19 03:00 (UTC), Submitted : 2023-10-19 03:00 (UTC).
- Body Test**: Parts : Body, Creator : wLugctest, Updated : 2023-10-19 02:59 (UTC), Submitted : 2023-10-19 02:54 (UTC).

Each item has a blue 'Received' button at the bottom. A red callout box points to the 'Received' button of the 'Head test' item with the text 'Click the “Status Bar”'.

## 8. Menu Buttons

| Buttons                                      | Details  | Review Status   |
|--|--|---|
| Submit                                       | You can now proceed to the final step.         | Applying, Proceed to Pay, Canceled                              |
| Upload / Update                              | Change uploaded UGC .zip file                  | Applying, Received, Canceled, Rejected                          |
| Delete File                                  | Delete UGC File or NFT                         | Applying, Received, Canceled, Rejected                          |
| Download .zip                                | Download the .zip file you uploaded            | All statuses  |
| Cancel Request<br>*when submitting UGC files | Cancel your request                            | Received  |
| Cancel Request<br>*when requesting NFT       | Cancel your NFT request/unlock request         | NFT transfer in progress  |
| Request NFT                                  | Trade-in UGC Clay to turn your UGC into an NFT | Request NFT, Proceed to Pay, NFT transfer in progress, Canceled |
| Request Unlock                               | Request to unlock, locked UGCs                 | Publication Locked  |

## 9. Review Status for your “UGC File”

| Status                 | Details   |
|------------------------|---|
| Applying               | You have uploaded your UGC file to GENSO Maker        |
| Proceed to Pay         | Pay the “Verification Fee” to complete the submission |
| Received               | Genso has received your files and will verify them    |
| Canceled               | You have canceled your request                        |
| Under Review           | Genso is reviewing your UGC file                      |
| Rejected               | There was something wrong with your UGC file          |
| Request NFT            | Your file is good to go! Request NFT!                 |
| Publication Locked     | Your NFT can not be published for some reason.        |
| Requesting Unlock      | You have sent a request to unlock the above status.   |
| Publication Terminated | Your UGC Equipment is not public anymore.             |

\*Statuses in red are updated automatically

## 10. Review Status when you "Request NFT"

| Status                   | Details   |
|--------------------------|---|
| Request NFT              | You can request NFT                               |
| NFT transfer in progress | The Clay NFT tx didn't work properly. Send again. |
| Proceed to Pay           | Pay the "TX Fee" to complete the request          |
| Received                 | Genso has received your request                   |
| Canceled                 | You canceled your NFT request                     |
| Rejected                 | There was something wrong with your request       |
| Creating UGC Equip.      | Genso is creating your UGC Equipment data         |
| Updating to Genso        | Uploading the data into Genso                     |
| Public                   | All is complete. Your UGC is public!!             |

\*Statuses in red are updated automatically

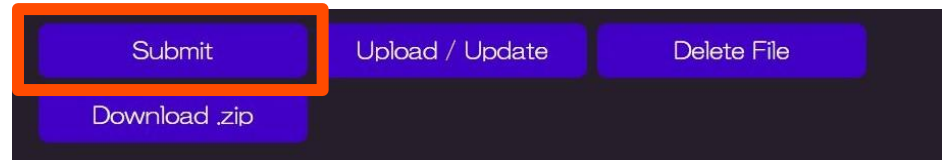

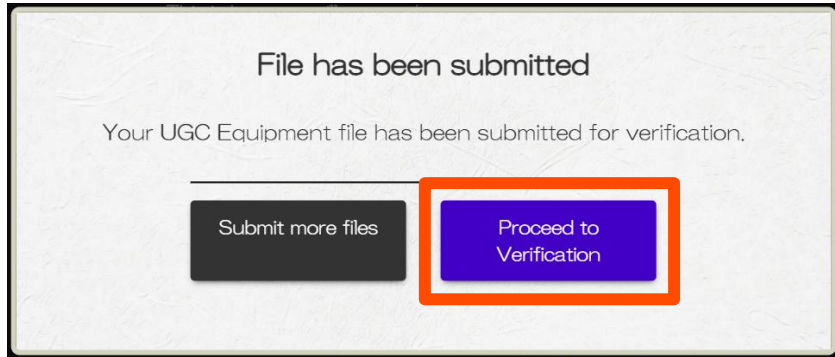

# 11. Final step: "Submit"

Once you've uploaded your UGC File, submit it to get it verified.  
We will be responsible for verifying whether the UGC File you submitted can be displayed properly on GENSO.

Submit by clicking **"Proceed to VERIF(Verification)"** after uploading your file.  
OR click "Submit" on your UGC File page.

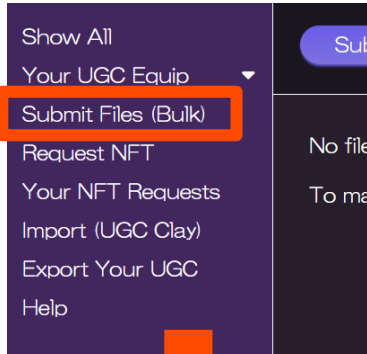

\*Verification incurs a fee (\$MV)

\*The fee is \$2 and the MV-USDT rate will be applied.

## 12. Submit Files (Bulk)

Submit max 10 files at once.

\*The same fee is applicable in bulk submissions.

\*If you submit 10 files for verification, you will be charged for 10 files.

## 13. When your file is rejected

# 15. Request NFT

If your UGC File passes verification, you can now "Request NFT"!!

1. Click "Request NFT"

2. **Be sure to choose the UGC Clay that corresponds to the UGC File you created.**

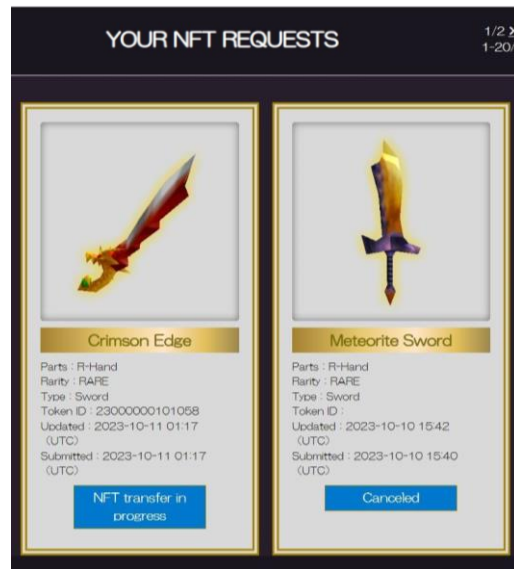

- \*You can only click the UGC Clay that corresponds.
- \*All imported UGC Clay will be displayed here.
- \*You can import corresponding UGC Clays from this screen too.

# 15. Request NFT

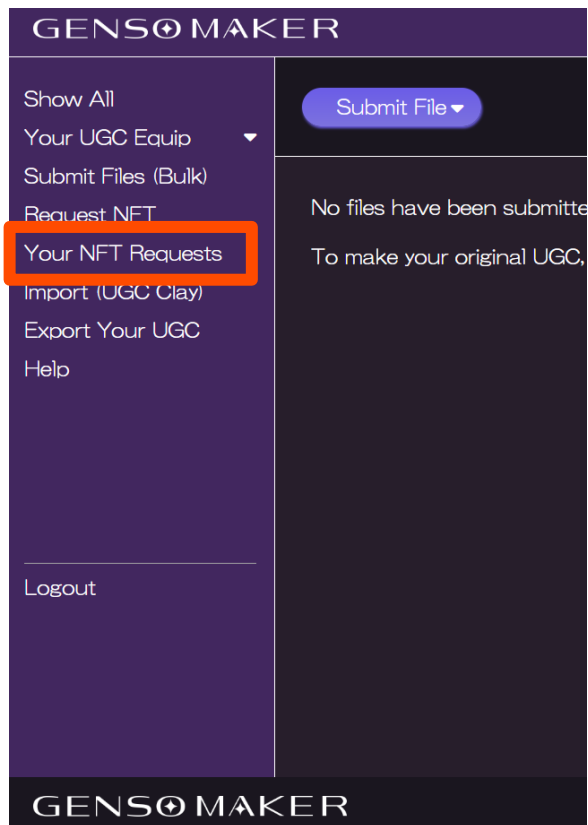

If your UGC File passes verification, you can now "Request NFT"!!

Your UGC Clay NFT has been traded in and now you have officially requested for your UGC to be turned into an NFT!!

## 16. Your NFT Requests

All your NFT Requests can be found here.

**\*Max amount is 100.**

If you exceed 100, please delete excess data.

**\*All files that have been published do not count.**

## 17. What is UGC Clay?

It is an NFT that you can get:

- from the GENSO Marketplace
- from the "Create NFT" feature on the Marketplace

By trading in the corresponding UGC Clay, you can turn your UGC into an NFT!

Make sure to trade-in the correct corresponding clay!

\* The diagram is only a list of icons and equipment parts. Please note that the names differ from the actual clay NFT.

## 18. UGC Clay Types

|                      |   |
|----------------------|---|
| UGC Clay (Head)      | Equipment for the "head" *Right now only equips over the hair |
| UGC Clay (Body)      | Equipment for the "upper body"                                |
| UGC Clay (Leg)       | Equipment for the "lower body"                                |
| UGC Clay (Shoulder)  | Equipment for the "shoulder"                                  |
| UGC Clay (Back)      | Equipment for the "back"                                      |
| UGC Clay (Dagger)(R) | Weapon for the right hand *thrusting motion                   |
| UGC Clay (Glove)(R)  | Weapon for the right hand *punching motion                    |
| UGC Clay (Gun)(R)    | Weapon for the right hand *shooting motion                    |
| UGC Clay (Staff)(R)  | Weapon for the right hand *magic motion                       |
| UGC Clay (Sword)(R)  | Weapon for the right hand *cut/hit motion                     |
| UGC Clay (Glove)(L)  | Weapon for the left hand *punching motion                     |
| UGC Clay (Shield)(L) | Shield for the left hand                                      |
| UGC Clay (Sword)(L)  | Weapon for the left hand *cut/hit motion                      |

# 19. Decide on the equipment you want to create!

Choose where and what kind of equipment to wear!

## Head

Items like helmets and hair accessories that are equipped on top of hairstyles.

## R-Hand

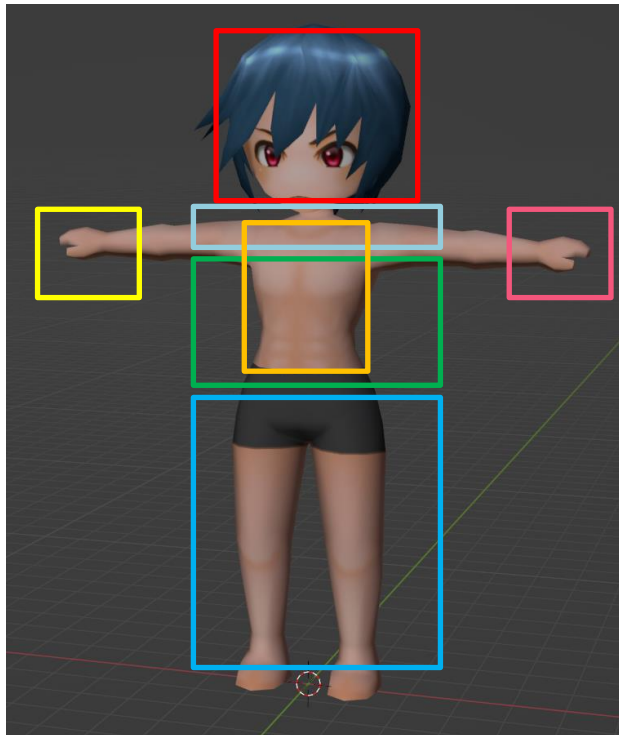

The weapons held in the right hand have selectable motions:

- Dagger : "Thrust" motion
- Glove : "Strike" motion
- Gun : "Shoot" motion for firearms
- Staff : A motion to borrow the power of magic
- Sword : "Cut" and "Strike" motions

※"Glove" is not meant to be held but is intended for "a worn on the hand" position.

## Leg

Items worn on the lower body.

## Shoulder

Items worn around the shoulders and extending over the back, such as capes.

## L-Hand

Items held in the left hand include weapons and shields.

- Glove : A weapon that you wear and strike with
- Sword : attacking while holding
- Shield

## Body

Armor, shirts, and other items worn on the upper body.

## Back

Bags, belts, and other items worn from the back to the waist.

## 20. YESSS!!! YOUR UGC Equip is ready!!

**Export & Import !**

If all of your files are in order and the application passes, the review status of your NFT application will change to "Public".

Your UGC equipment is now complete! 

When your UGC is "Public", that means your UGC equipment can now be exported.

It can now be exported to a wallet and imported into Gensokishi Online!!

## 21. Publication Locked/Terminated

If there are any problems with your UGC we may lock or stop the "Public" status.

This will be applied to the original UGC file of the UGC equipment,  
so all UGC equipment that has been applied from that file will also be locked.

If you had imported the relevant UGC equipment into GensoKishi,  
the graphics, name, and description of the equipment will be changed to a default state.

In the case it is "Locked", you can request to have your equipment unlocked  
by going to your Request NFT screen and clicking "Request Unlock".  
If your claim is approved, we will unlock the state and make it "Public" again.

In the case it is "Terminated", it will not be made Public again.

The verification process we have is only a confirmation for whether or not  
the file can be displayed correctly on GensoKishi.

**Please do not create designs that could be offensive to the public.**  
**Be responsible.**

\*Even if problems occur between players (ex. Similar design etc), Genso will not take action. We ask for your understanding.
