# The endless possibilities of the GENSO Metaverse

## Game

■ Users can also share NFTs with other Blockchain games, and have NFTs come onboard. Previously, if a game ended their service, the user's data would have been wiped, but within the Metaverse, it can be preserved as an NFT asset.

■ **Users will be able to create their own RPG world by obtaining LAND.**

Perhaps a sequel to a famous RPG will be developed in this world.

This RPG world could be linked to society, goods, currency, logistics, technology, and more.

This really is the future where “Fantasy becomes Reality.”

An RPG world designed like a space film?

The realization of futuristic cities?

An anime about reincarnation in another world?

What is the world that you would dream of?

# The endless possibilities of the GENSO Metaverse

## Metaverse

■ LAND is our basic term for property in the Metaverse, which can be purchased and built upon by UGCs.

■ By using materials earned by playing the GensoKishi Online game, users will be able to create NFTs. The endless possibilities of the NFTs that can be created includes using formulas to create and connect physical real-world items with rare NFTs, or creating objects and furniture to be used as home décor.

## Housing

■ Users will be able to build homes with the housing function, which allows users to have their own home in the Metaverse. Players will be able to connect and invite others who are physically located all around the world and showcase their personality & style.

■ Your Metaverse housing will be a home for your various NFTs. Spend time with the friends and families you have met in the Metaverse and style your home by placing NFTs of various furniture in your own home. Furniture NFTs will never get old and can be sold to others as antiques.

# The endless possibilities of the GENSO Metaverse

## Relationships

■ Users will be able to start a family in the Metaverse. Marriage certificates will be issued by contract. Users can even purchase brand-name engagement rings and wear them in the Metaverse via NFT, while obtaining a physical version of the ring through the e-commerce platform.

## Anime & Events

■ Various animated characters (IP) will be a part of the “GENSO” world. We will be announcing collaborations with multiple projects in the upcoming future.

## Art

■ Digital art NFTs can be showcased in various parts of the Metaverse. Users can display digital art NFTs in their own LAND and host private exhibitions.

■ Collectors could create a museum with NFTs arranged like an art collection. Users will have the possibility to host auctions connected with real-life physical artwork and antiquities.

# The endless possibilities of the GENSO Metaverse

## E-commerce & Logistics

■ Users will have the ability to purchase e-commerce products that are shipped around the world within the Metaverse. Transferring ownership rights of products purchased on e-commerce channels will be much easier, as the ownership rights will be transferred via digital data and users don't need to handle physical items. In GENSO, all products available within the Metaverse can be purchased with cryptocurrencies.

■ Real-life limited items can have an exclusive NFT issued  
For example, a limited-edition motorcycle could have an exclusive NFT issued, which could arrive in the Metaverse prior to being manufactured. Motorcycles could break over time, but with the NFTs, but users can showcase their prized possession without worrying that the item may break.

## Tourism & Culture

■ Real world cities and famous tourist attractions can be realized and recreated within the Metaverse. Users will be able to experience local specialties and limited NFTs available only within the specific locations.

Additionally, users could visit the physical locations and obtain NFTs that that can only be acquired at the location. Traveling around the world to collect NFTs can potentially come to reality soon.

# Various character raising factors.

## Raise your own unique character

The screenshot displays the Gensokishi Online character creation and raising interface. On the left, a list of existing characters is shown:

- Cosmos** (Lv. 30) - Samurai
- Dan** (Lv. 30) - Guardian
- Light** (Lv. 15) - Fighter

Below the list are two buttons for **Character creation** with the text "Press here to create a new character!". At the bottom left are icons for **Delete**, **Exit**, **Stamp book**, **Settings**, and **Twitter**.

In the center, a character preview shows a character with pink hair and a blue cape, holding a sword. Above the preview, a **Fighter** class selection box shows **Lv 15** and a **Recommend** button with **Left 88 pt**. A **Portablue Harbor** banner is visible below the preview.

On the right, a **Stat wheel** displays various stats: **STR** (7-10), **VIT** (160-110), **MND** (100), **INT** (0), **AGI** (50), and **DEX** (210-110). A **PowerUp!** button is located above the wheel.

At the bottom right, a **Skill tree** shows various skills and their levels, including **Slash Lv1**, **Champion time**, **Knowledge Lv1**, **Amok Slash Lv1**, **ATK +40**, **Inherit ATK +40**, **Ki Slash Lv1**, **Nagi-Slash Lv1**, **Taunt Lv1**, and **ATK +40**. A **Game Start** button is located below the skill tree.

Two large red **PLAY** buttons with white arrows are positioned on the far right. The background features a cityscape with a tower and a crane.

# GENSO Overview

## GensoKishi Online

Play inside the Metaverse

An MMORPG-based fantasy themed metaverse. Massively multiplayer, players can connect with other players in our 3D world and engage in activities by importing LAND, NFTs, or MV/ROND tokens.

## GENSO Maker

Create in the Metaverse  
(Beginner-friendly) NFT Exports

A beginner-friendly application that gives players the power to: place objects and design their LAND, see their LAND through the eyes of a character, publish their LAND onto GENSO, create character skins and export into NFTs.

## GENSO Game Development Kit

Create in the Metaverse (Dev kit)

Set up in-game events, characters, monsters, and more.  
Allows for full-scale LAND development in conjunction with Unity.

## LAND Viewer

Scroll through GENSO LAND

Scroll through the map and see who owns which LAND on GENSO. Players can check what kind of land is available to buy/sell or even negotiate with the owner to rent.  
There will be a “contact owner” button that allows you to exchange messages.

## GENSO BLOCK

Create using BLOCKs

An easier way to make objects on GENSO using blocks.

## Creator's Program

Support program

A support program for participants who create/develop in the GENSO Metaverse. Sponsors and other organizations support the program, and contests are held, with cash prizes for excellent works. Sponsors and companies will fund creators while GENSO official sales will also generate income for the creators. The excellent works will appear on PlayStation® and Nintendo Switch™.

## ROADMAP

# The 3 Phases of GENSO Metaverse

## ③ Absolute expansion and Welcoming in more..!

There will be more and more people who will join our fantasy world for different reasons – not only games but also animation, art, e-commerce, and finance. Our fantasy world will combine with the real world to form an actual society. → transformation into a Dapps

## ② “MV Chain” + “LAND” + “NFT UGCs ”

Players will be able to create LAND/items/skin NFTs using our UGC feature. All creators and players will take on a key role in the expansion of our fantasy world → transformation into a DAO

In progress

## ① Creating an economy in the MMORPG world through blockchain & NFTs

The metaverse will be founded on MV (UTILITY Token), ROND (In-game currency), and NFTs (Items / Costume / Equipment for the metaverse), and it will be the world's first metaverse service that actualizes its own in-game economic sphere.
